RESPONSE TO NOTICE OF NON-COMPLIANT AMENDMENT MAILED ON AUGUST 24,  
2006

In a communication mailed on August 24, 2006, the Patent Office indicated that the amendment submitted on June 8, 2006, which was submitted with a Request for Continued Examination, was non-compliant. In particular, the Patent Office indicated that claims 29 and 71 were not provided with proper status identifiers, and, therefore, the response failed to meet the requirements of 37 CFR 1.121. Applicant submits the following corrected amendment that includes a corrected "Amendments to the Claims" section having proper status identifiers for claims 29 and 71. Moreover, applicant has also corrected the "Amendments to the Claims" section to eliminate the use of the same claim number (i.e., 82) for two different new claims added in the amendment submitted on June 8, 2006. Accordingly, the pending claims are now numbered from 1-87, rather than from 1-86.
